SCHOOL BUILDING PROGRESS – The photo above is from this past week, just before a fence began to go up around the building. Electrical and plumbing rough-ins begin this week. We expect it to be weather-tight around Thanksgiving. Interior drywall is expected late December with volunteer painting would follow. An opportunity for our members to visit the site and sign the framing before it's covered up is being planned for the first weekend in December.

SCHEMATIC DESIGN & COST ESTIMATE – The schematic design by Excel is completed. The design details, cost estimate from Catalyst, and recommendation from the Church Council and Steering Committee will be ready for the congregation next Sunday, November 15th.
